March, 19 2020

Good morning

If corona virus prevention and containment measures have resulted in loss of income for you, please notify us right away. As we continue to monitor the situation, we will make changes as needed to our procedures in an effort to keep our tenants and community safe. Again, please notify us of any income changes so we can quickly and properly adjust rent calculations for the upcoming months. Please rest assured that COVID-19 related situations will not cause any of our tenants to lose their housing. It is an honor to serve you during these trying times. Please contact us via phone or email if you need assistance.
