Hello Woodside Manor!

In the month of July, we took the kids to the Fish Tech Center and The History Museum. We learned about Survival, built Shelters in the woods, and took kids fishing at the Buskin River and to Pasagshack for a fun day out the road. We have one more month left of summer fun before school starts for 1st-5th Grade at the end of the month. We hope everyone has a great rest of their summer!
